

SSTI is a national nonprofit organization that leads, supports and strengthens efforts to improve state and regional economies through science, technology and innovation.

Since its inception in 1996, SSTI has developed a nationwide network of practitioners and policymakers dedicated to improving the economy through science, technology and innovation. This network has resulted in unique access to information. SSTI uses this access to assist states and communities as they build tech-based economies, conduct research on best practices and trends in tech-based economic development, and encourage cooperation among and between state and federal programs.

SSTI | 5015 Pine Creek Drive | Westerville, OH 43081 | 614.901.1690 | membership@ssti.org | www.ssti.org

The most comprehensive resource available for those involved in technology-based economic development.
